Update of arts and cultural production statistics

Today, BEA released updated national-level arts and cultural production statistics on output, value added, intermediate inputs, employment, and compensation from 1998 to 2022, with new statistics for 2023, and updated state-level statistics on value added, employment, and compensation from 2001 to 2022, with new statistics for 2023. The 2017 to 2023 statistics primarily reflect the incorporation of new and updated source data as well as the results of the 2024 annual update of BEA's National and Regional Economic Accounts. The updates to the 1998 to 2016 statistics reflect the incorporation of the 2023 comprehensive update of BEA's National and Regional Economic accounts. These data, combined with new and revised arts and cultural production-specific source data, allow the arts and cultural production statistics to capture the dynamics of this sector more accurately.

BEA's Arts and Cultural Production Satellite Account is supported by funding from the National Endowment for the Arts.
