Pablo Casals

“Each second we live is a new and unique moment in the universe, a moment that never was before and will never be again.

And what do we teach our children in school?

We teach them that two and two make four and that Paris is the capital of France.

We should also teach them who they are!”

One Goal

*Ensure continued, active
music-making to help others “fly”*

*Music-making opens our worlds and creates
empathy, compassion, and a bond between us.*

*Music will help to save humanity—
the more people play music together,
the better citizens we'll all be.*
